This document confirms that the Victrex grades listed above are not expected to contain the substances listed within the 'Railway Industry Substance List (RISL) – March 2025 version' at the levels specified².

Further information concerning 'Railway Industry Substance List (RISL)' can be obtained from <http://unife.org/railway-industry-substance-list.html>

Some of these chemicals may of course be present at extremely low and normal background levels as typically found in the industrialised world. Wherever possible, quantitative analysis performed has shown measured levels of key elements to be well below the specified threshold.
