VICTREX FG™100, FG™200 and FG™300
CERTIFICATE OF COMPLIANCE WITH FDA REGULATIONS FOR PLASTICS FOR FOOD CONTACT

We hereby confirm that our products VICTREX FG™100, VICTREX FG™200 and VICTREX FG™300 comply with the compositional requirements of the regulations FDA 21 CFR 177.2415, and the regulations for plastics for food contact of the Food and Drug Administration (FDA) of the United States of America, as a component for repeat-use articles intended to contact all food types at all temperatures up to and including oven cooking temperatures.

Articles or components manufactured from VICTREX FG grades listed above, in accordance with good manufacturing practice and in accordance with our appropriate recommendations, may be safely used for repeated contact with food, except with infant formula and breast milk¹.

The finished food contact article is subject to extractive limitation as per FDA regulation 21 CFR 177.2415.

Compliance with the extractive limit can only be demonstrated by tests carried out on the final article.

Signed

Date: 7th February 2019

Dr John Grasmeder
Chief Scientist

Notes:

1. This limitation is now necessary in this statement based on the requirements indicated within the Infant Formula cGMP regulation 21 CFR § 106 although there have been no changes to the products listed.
