

## Victrex™ Manufacturing Ltd

### Quality Policy

- To identify and meet the changing needs of our customers, including their quality requirements, by developing and offering leading edge products and services
- To use design tools and rigorous governance processes throughout our new product introduction processes
- To identify and comply with all relevant regulatory requirements
- To continuously improve customer service and product quality to meet customer expectations
- To provide technical service to customers, ensuring they can gain optimum performance and value from their use of Victrex products
- To ensure that every Victrex employee is responsible for, and engaged in, improving the quality of our products and processes
